Hubbell JSK Water Heater

The Hubbell JSK Sanitizing Sink Heater is designed for 3 or 4 compartment sinks, pot and pan sinks and bar sinks providing a consistent and continuous supply of sanitizing rinse water for manual warewashing applications. The JSK fits under the center of the sink so it doesn't take up any sink space and is easy to service and maintain.

Model JSK Features and Benefits

- The all stainless steel body and base comes standard on all models
- Electronic controls provide precise and consistent water temperatures
- Digital display for visual confirmation of set point temperature and fault conditions
- Equipped with an energy cut-off (ECO) for built-in protection against higher than normal water temperature
- Low water cut off to prevent element burnout
- ETL (Sanitation NSF listed)
- Shipped ready to install with all gaskets and fittings
- Screw in type elements
- Separate sump and heating compartment drains allow for easy cleaning and sanitizing
- Standard 2" brass plated plumbing fittings for mounting under a sink
- Multiple voltage options available
