

HYDRAWASH

High Pressure High Temperature Sanitization

HYDRAWASH

Introducing Hubbell's HydraWash, the most complete pressure washing system available. The HydraWash system delivers High Pressure and High Temperature water in one turnkey package to deliver fast and effective cleaning and sanitization. Hot water is a proven resource to help emulsify dirt, grease and residue from surfaces, so the HydraWash systems pairing of 140°F hot water and 2gpm of 1000 psi deliver the best results possible.

The Hydrowash system offers total hot water temperature control and the integrated tankless hot water heater supplies the hot water so you never deplete the critical hot water supply needed in the kitchen for essential cooking equipment. HydraWash maximizes efficacy rates while saving precious resources making it the most advanced cleaning system in the industry!

HydraWash System (12" Floor Scrubber not shown).

HydraWash Features

- Power System with 2 HP Baldor Motor
- 18kW Tankless Water Heater
- 50' High Pressure Hose
- 12" Floor Scrubber
- 36" Dual Nozzle Spray Gun and Wand Assembly
- Hose Reel
- Wall Mount Brackets

Applications

- Commercial Kitchens
- Restaurants
- Food Processing Plants
- Cafeterias
- Buffets
- Commissary

Warranty

- Five (5) Years Motor
- Two (2) Years Parts
- One (1) Year Labor

HYDRAWASH

How It Works

Most cleaning processes begin with the delivery and application of sanitizing agents with low pressure or in foam form to reduce the risk of aerosolizing common pathogens found in a kitchen. After sufficient chemical contact time is complete the HydraWash system goes to work. HydraWash impacts the surface with 2 gpm and 1000 psi of 140°F hot water and easily rinses away harmful pathogens from the pores of any surface. The tankless hot water heater included with your HydraWash system comes pre-set at 140°F to maximize the efficacy of breaking down grease and other residue. The addition of hot water to the cleaning process delivers the fastest and most effective results possible. To truly deep clean and sanitize kitchen floors, the Hubbell HydraWash system includes a 12" floor scrubber to power wash floor surfaces and leave them looking spotless. The floor scrubber eliminates overspray and slides under equipment, making cleanup fast and easy!

HYDRAWASH EXPRESS

Mobile Cleaning System

The Hubbell HydraWash Express Mobile Cleaning System is ideal for use in outdoor or remote areas where wash downs are needed. The HydraWash Express provides fast and effective high pressure water to safely clean and sanitize. The unit's mobile cart is portable and conveniently holds the 50' high pressure hose reel, spray wand assembly, and cleaning solution!

Designed with convenience in mind, the HydraWash Express can be used in a variety of applications to promote safety. Add the optional 12" Floor Scrubber and you've got the perfect system to clean sidewalks and walkways!

HydraWash Express Features

- 2.0 GPM / 1000 psi
- 50' High Pressure Hose
- 36" Dual Nozzle Spray Gun and Wand Assembly
- 115v/ 60Hz/ 1 Phase/ 15 Amp

Applications

- Food Trucks
- Pool Decks
- Grocery Carts
- Garbage Cans
- Floors & Mats
- Golf Carts
